PROFESSIONAL SUMMARY

I am currently developing expertise in the MERN stack and have established a strong foundation in HTML, CSS, and JavaScript. These skills have enabled me to gain a solid understanding of front-end development, responsive design, and interactive web applications. I am now focused on expanding my knowledge of modern frameworks and back-end technologies to become a proficient full-stack developer. My objective is to apply these skills to real-world projects, gain practical experience, and contribute to building efficient, scalable, and user-friendly web solutions.

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap
Technical: MS Office(Excel, Word, PowerPoint)
Backend: JavaScript
AI/Automation: Generative AI

EXPERIENCE

Tata Forage 08-Aug-2025
GenAI and Data Analyst

- Gained hands-on experience in GenAI-powered data analysis and insight generation through a Forage simulation.
- Performed exploratory data analysis and created risk profiles.
- Built AI models to predict loan delinquency.
- Prepared a business report and presented data insights through storytelling.

PROJECTS

Digital Library Frontend (HTML, CSS) 2025

- Designed and implemented responsive user interfaces for a digital library using HTML5 and CSS3.
- Optimized page load speed by minimizing CSS and structuring HTML efficiently.
- Created interactive UI elements with CSS transitions and hover effects for better usability.

Catch It (HTML, CSS, Bootstrap, JavaScript) 2025

- Score increases for every catch; game ends if missed.
- Player moves a paddle with arrow keys to catch a falling ball.
- Includes Game Over and Restart features.

EDUCATION

Sage University, Indore 2022 – 2026
B.Tech in Computer Science and Engineering CGPA: 7/10

ACTIVITIES & ACHIEVEMENTS

- I participated in the Web Design Competition at Tech-o-tsav and was awarded a certificate of participation.
- Completed the "Young Professional", "IT and Non-IT" program by TCS iON, and earning certificates.
